## ADVANCED CHUTE SYSTEM

With the advanced chute system's variable stage all-steel shield, you can effectively and accurately control the discharge from your zero-turn mower. Closing the Advanced Chute System completely prevents discharge into flower beds, driveways and swimming pools.

In high-density areas where flying debris can damage windows, vehicles or even people, keeping the advanced chute at a semi-closed position forces debris down immediately, preventing straight line discharge at speeds of over 320 km/h!

Built for commercial lawn and garden professionals and zero-turn mower homeowners alike.

Plus, the Advanced Chute System also turns your mower into a powerful mulching machine, perfect for autumn leaf cleanup! You can easily control clippings and debris for quicker, easier lawn care.
